

Mini Lesson
Music

Grade Level: Fourth Grade

Curriculum Topic: Students will compose melodic and rhythmic patterns using musical expression.

Standard: CR.2.4.2

Tools: Specdrums and Padlet

Individually

Synopsis: Students will use Specdrums to create their own melodic and rhythmic pattern. The students can use the app-connected rings to tap a color or number to hear a sound. The students can explore the app to find different sounds to use and make different melodies and rhythms. After the students play around and compose their own patterns, they will go on Padlet and post a discussion on the main board about what their favorite part of Specdrums is. Each student is required to write 3-4 sentences explaining what they enjoyed and what they disliked.
