Describe the software (1-2 paragraphs):

This software contains a lot of good content that is new and relevant. Users are provided with videos that are helpful in learning new skills or getting a refresher to test previous knowledge. Khan Academy is a nonprofit organization with the mission of providing a free, world-class education for anyone, anywhere.

Impressions of the software/how it can be used in your class (1-2 paragraphs):

This is a great app to use in the classroom. This app is extremely easy to use as it breaks lessons, videos, and material down between grade, expertise, and content area. We could use this app for any subject in our classroom or as an additional tool for our students to use at home.
