

At Home Acceptable Use Policy

Explanation

An Acceptable Use Policy is a way to be familiar with your child's internet usage, as well as their behavior. It is important to have an agreement between you and your child. The internet and technology is a foreign area for many parents, so it is important to set boundaries and rules. An agreement is something that I implement in my classroom, and I feel that it is important to bring these rules into the home as well. The policy you make should include rules you set for technology, behavior, and the internet. I have provided a template for you to use, so hopefully you can think on it and make an informed decision.
