

Grade: 2nd Grade

Curriculum Subject: Social Studies

Tools: BrainPop and Microsoft Word

Environment: Students will be broken up into groups of 2. Each student will be assigned a historical figure to research on BrainPop.

Synopsis: For this lesson, students will be broken up into teams of two. Each student will be assigned a historical figure to research on BrainPop. They will each get on Word and create a series of interview questions that they would like to ask their partners historical figure. Once they have their interview questions, they will break off and independently research their historical figure online. They should use videos and text on the app to write out facts about their figure. The teams will then come back together and interview one another, acting like they are their historical figure. (If time allows, students should be able to dress up/act like their historical figure.)
