

Dear Parents/Guardians,

Down below I have drawn out a template that could help you organize certain rules in your household. By both you and your child abiding by these rules, it will make it easier on your child to make the transition from home to school on a daily basis.

**House rules**

By reading this, I understand that I will follow and enforce these rules for my child. If there is a mistake, we will discuss consequences as a family based on the action taken.
