

App #5

Title:	BrainPOP ELL
Version:	1.0.5
Publishers/producers:	BrainPOP
Target Audience:	Children between the ages of 9-11
Types of software:	Tutorial: this app lets students learn new information and to practice it. Drill and Practice: this app has 3 levels and students build their knowledge from the 3 levels.
Curriculum:	This app is used to teach students to read and speak English. Students learn important vocabulary words and move through 3 levels (beginner, intermediate, and advanced).
Cost:	This app is free.
Description:	Students can navigate through the 3 levels and learn to read and speak English. The educational videos lets students hear and see the words being said in the video. They can also learn the important vocab and even have a quiz at the end.
Impressions:	We like this app because it allows students to read and speak English through videos. The students can watch the videos and learn the words through the characters talking.
Pass Apps?	Yes
