

Evaluating Apps

Title I Got This

Evaluators Annie Shaw and Hannah Cunningham

Questions	Yes	No	Comments/ Notes
Have you played enough to know every aspect? <ul style="list-style-type: none"> • Did you try things that were wrong and/or unexpected 	✓		There was only one way the story could go.
Did the software crash?		✓	
Was the content appropriate? Did it meet the user's needs?	✓		It gave a lot of good information over diabetes.
Were the screens appealing? <ul style="list-style-type: none"> • Color, items on screen, sounds 	✓		The graphics could have been better, but every scene was nice and easy to look at.
Is it easy to navigate?	✓		There are only certain times the user has options.
Is it easy to learn?	✓		The app knows what to do.
Does the user need Supervision to use		✓	The app will only progress in one way.
If the App required a response, was it appropriate? (right or wrong)	✓		It did allow certain objects to be clicked on and those all had an appropriate response.
Were there bells and whistles? <ul style="list-style-type: none"> • If so, do they enhance instead of detract? • If not, should there be? 		✓	This app was very straight forward. It got its point across.

Evaluating Apps

Did you like using the App?	✓		It was informative and insightful.
What was the cost? <ul style="list-style-type: none"> • Was there a "lite" version <ul style="list-style-type: none"> ○ If so, was it enough 		✓	There was no cost.
Were there in-app purchases? <ul style="list-style-type: none"> • If so, what were the additional costs? 		✓	There were no in-app purchases.
How does it compare to other apps that do the same?	✓		It was very informative. It educated the user in a specific way for a specific purpose. I (Hannah) am not sure other apps would be this focused on one topic.
Additional Comments	✓		This app was educational and could be used in a Health classroom or in a classroom where individuals who have health issues are bullied.

Developmentally Appropriate

Questions	Yes	No	Comments/ Notes
Child Development and Learning <ul style="list-style-type: none"> • Subject Matter appropriate? • Educational Focus? • Provides for Learning New Content? • Follows Appropriate Teaching Sequence? 	✓		Its focus was to educate on Type 2 diabetes. This material was presented appropriately. It allowed students to learn about diabetes. It followed a teaching sequence of presenting side effects before the diagnosis.

Evaluating Apps

<p>Individual</p> <ul style="list-style-type: none"> • Does it match individual's abilities? • Does it meet individual's needs? 	<p>✓</p>	<p>Yes, and no. It does not allow for much choice, but it does educate students on a subject.</p>
<p>Social/Cultural</p> <ul style="list-style-type: none"> • Bias? • Commercialism Comments 	<p>✓</p>	<p>It assumes that type 2 diabetes comes from drinking and eating a lot of sugar. It also assumes that students with diabetes are bullied. It also portrays the girl with diabetes as bigger and African American. We believe it should have allowed a student to make their own avatar to get rid of this bias.</p>
