

Compare and Contrast

Grade level: Fifth Grade

Curriculum Topic: Language Arts, RL.5.3 Compare and contrast two or more characters, settings, or events in a story or drama, drawing on specific details in the text (e.g., how characters interact).

Tools: Inspiration (graphic organizer) and Google Classroom to enhance learning.

Synopsis: After reading *Mark of the Thief*, we will have a discussion as who are the main characters in the book. Each student will choose any two of the main characters in the book and compare them using Inspiration (digital graphic organizer). I will model what the students need to do by showing them my Inspiration comparison so that they know what I am expecting out of it. After that, students will login Google Classroom to submit their comparisons and answer a quiz about the events of the book and characters interaction. The quiz will be graded and used as an assessment.
