The on-line world

Grade level: Fifth grade

Curriculum Topic: Use technology, including the **Internet**, to produce and publish writing

and to interact and collaborate with ....

Tools: eBooks and Poll Everywhere (on-line tool) to enhance learning.

Synopsis: Since students will be using technology and on-line tools in class, I would like them

to be aware of how to safely use technology. I will discuss with the whole class on-line safety

and how they should not share any private information or passwords. I will talk about how

posting anything online stays there forever. I will read the eBook *Technology Tail* with the whole

class and have a discussion afterwards about what they think of the book. Then students will use

Poll Everywhere to answer my questions about Do and Don'ts of technology use. We will have a

discussion after every question to talk about the consequences related to their answers.
