

MINI LESSON PROJECT

Spelling Practice

1. 3rd Grade
2. English
3. Kahoot! and Osmo Words
4. The students will be using the Osmo Words game to help them with their spelling. The students will play in groups of 4, 2 against 2. They'll play 3-4 rounds of the Osmo game, then the teams will have to compete against each other by doing a Kahoot! quiz over the words they had to spell during the game.

Geography Fun

1. 6th Grade
2. Geography
3. VT Viewer and Google Maps
4. The students will use the given coordinates to find the correct destination in Google Maps. From there the students will use their VT viewers to look at 3-D pictures of the destinations that I gave them to find. They'll do this activity in groups of 3-4 students.

Graphing

1. 5th Grade
2. Math (Graphing)
3. Bee Bot and CreateAGraph
4. The students will start by printing off their own graph from CreateAGraph, with my help of course. I will then group them into 3-4 students with 1 Bee Bot per group. The students will use the Bee Bot to plot a line that I have pre-programmed into the bot. They will have to follow its movements and be sure to pay attention to its turns and stops.

Treasure Hunt

1. 4th Grade
2. Language
3. Duo Lingo and QR Treasure Hunt
4. The students will use the Duo Lingo app in pairs, the language will be set to Spanish. The students will need to identify things (in Spanish) around the room. On the bottom of each item, there will be a QR code that leads to a hint about what the next item will be. The first group to finish identifying all the items gets to have a free center day to choose whatever center they want to play in.
