

Padlet

Ways to use padlet in a classroom:

1. Used for homework help
2. Used for announcements
3. Used for assignment publishing
4. Used for extra resources (specifically ones used in class)
5. Used for lesson plan activities (apps, websites, videos, etc)
6. Used for educational videos

Online Tools

I love learning about new online tools to use in my future classroom. I love Kahoot!, class dojo, and go noodle! I like the fact that they add extra affects to the classroom. Someone got a question right? Let's just go right down to Class Dojo and give them some points! Want to play a competitive vocabulary game? Let's head over to Kahoot! where the students can play as teams or every man for himself. Need some break time because the students are so energetic? GO NOODLE is the best website for small brain breaks!
