

Mini-Lesson Idea #4: Osmo pizza & Sketchbook

1. Grade level: K-1st Grade

2. Curriculum:

- AR.Math.Content.K.MD.C.6 Identify pennies, nickels, and dimes, and know the value of each
- AR.Math.Content.1.MD.B.4 (New Standard)
Identify and know the value of a penny, nickel, dime, and quarter
- AR.Math.Content.1.MD.B.5 (New Standard)
Count collections of like coins (pennies, nickels, and dimes)

3. Tools: The students will use Osmo Pizza & Sketchbook for this lesson.

4. Synopsis: The students will already be familiar with what each coin's name is and we will begin to learn how much each coin is worth. This lesson is supposed to let the kids have fun making the persons order and giving them change back. However, since giving change back will be quite a challenge for them, I will be doing most of it. I will have the students use sketchbook to "take" the orders and write down numbers.
