

How to Wrap a Gift

Step one: (Optional) If you are gifting a bulky or weird shape item, you may want to place it in a box to make the wrapping job easier.

Step 2: Sort of measure how much paper up are going to need to cover the box & cut it.

Step 3: I always tape every fold to the box. Fold and tape the sides.

Step 4: Fold and tape the ends now.

Step 5: Time to decorate! Not necessary but is cute! Sort of guess how long you will need your ribbon & cut.

Step 6: Time to tie the bow. You may need some help! Simply make a knot to hold your place, then make a bow. I do it like I am tying my shoes!

Step 7: Fancy it up. I use tree trimming but you can use whatever festive item you have or nothing at all!

Hope my video helps! Good luck!
