

Acceptable Use Policy Letter

Dear Parents/Guardians,

As you have seen, in our classroom we have implemented an acceptable use policy, referred to as "Ms. Welsh's Classroom Agreement." By creating this policy, I am allowing our students to understand what is acceptable and not acceptable in our classroom for the school year. This is to help students become familiar with proper etiquette when it comes to using technology and being on the internet. With an increase internet usage today, I believe it is very important to help prepare our students to use technology in the future.

I encourage you to talk with your child and come up with a set of rules and expectations that apply to when the student is at home. These rules can be anything that you think will benefit your child while they are using technology/internet in your home.

I understand that it may be hard to figure out where to start with an acceptable use policy for your home. I have provided a template that you may use as a guide. You do not have to use this template; you are more than welcome to create your own. I want you to do what is best for you, your child, and your home!

Please feel free to contact me if you have any questions about creating an acceptable use policy in your home!

- Ms. Hannah
