Questions	Yes	No	Comments/ Notes
Have you played enough to know every aspect? <ul style="list-style-type: none"><li>• Did you try things that were wrong and/or unexpected</li></ul>	X		Yes, we played with this app for a while and it has a great concept to it.
Did the software crash?		X	The software worked really fast and we had no problems out of it.
Was the content appropriate? Did it meet the user's needs?	X		This app was very age appropriate and it met the user's needs because it helped with mathematical skills.
Were the screens appealing? <ul style="list-style-type: none"><li>• Color, items on screen, sounds .....</li></ul>	X		The colors were very vibrant and appealing, and we think the children will really get into this app because of how it's laid out. The sounds were very great and kid friendly.
Is it easy to navigate?	X		There were different sections

			with different math problems they can choose from and it's easy for them to find the different sections.
Is it easy to learn?	X		
Does the user need Supervision to use		X	This app was very kid friendly, so we didn't think their needed to be supervision
If the App required a response, was it appropriate? (right or wrong)	X		When we were playing around with the app and you got an answer correct then it would give you coins as a reward, and if you got an answer wrong then it would make a noise and let you retry.
Were there bells and whistles? <ul style="list-style-type: none"> <li>• If so, do they enhance instead of detract?</li> <li>• If not, should there be?</li> </ul>	X		There were many sound effects and it also spoke directions to you. We both thought it enhanced instead of detracted.

## Evaluating Apps

<p>Did you like using the App?</p>	<p>X</p>	<p>This is a great app for children, and we think it will teach them and help them a lot.</p>
<p>What was the cost?</p> <ul style="list-style-type: none"> <li>• Was there a "lite" version             <ul style="list-style-type: none"> <li>○ If so, was it enough</li> </ul> </li> </ul>	<p>Free</p>	<p>This app was the lite version and it was free</p>
<p>Were there in-app purchases?</p> <ul style="list-style-type: none"> <li>• If so, what were the additional costs?</li> </ul>	<p>X</p>	<p>There is a full version that is \$29.99 per quarter and when you get the full version it opens up more math sections for the children to use.</p>
<p>How does it compare to other apps that do the same?</p>		<p>I've never used any math apps like this but one thing we both noticed is how expensive the full version is compared to looking at other math games, and we feel like since the other apps are cheaper and run from like \$4.99-\$5.99 that people we download other apps instead of this one, even though this app has</p>

## Evaluating Apps

			a lot of great information and content for the children to learn.
Additional Comments			This is a great app for students K-6. It focuses on each grade and has different activities and games for each grade.

### Developmentally Appropriate

Questions	Yes	No	Comments/ Notes
Child Development and Learning <ul style="list-style-type: none"> <li>• Subject Matter appropriate?</li> <li>• Educational Focus?</li> <li>• Provides for Learning New Content?</li> <li>• Follows Appropriate Teaching Sequence?</li> </ul>	X		This app had so many different sections for math that the children could click on, and the content were in the form of quizzes but the children would never know because it makes it fun for them and it allows them to grasp the content more and shows them what they did wrong.
Individual <ul style="list-style-type: none"> <li>• Does it match individual's abilities?</li> <li>• Does it meet individual's needs?</li> </ul>	X		We both think it matches individual's abilities because it allows them to do different math skills and the app shows them what they did wrong, and
