

iMovie Synopsis

This iMovie was created to teach my students the national holidays that they should know. In my movie, I explain what a national holiday is and then I list the holidays that I am teaching them, and information about them, along with images to go with each holiday. The standard that goes along with this activity is H.12.K.5-Identify the purpose of national holidays and describe the people or events celebrated. The students will watch the iMovie I created showing the different national holidays, and then do an activity and worksheet that will help them learn the holidays better.
