Evaluation

Title: Khan Academy

Version: 7.10

Publisher/Producer: Khan Academy

Target Audience: ALL people willing to learn – Students, teacher, principal, adult returning to school or an alien

Type of software: Discovery Learning

Justification: Khan Academy is Discovery learning because all ages can learn on this app. Even adults returning to school after being out of school for a while!

How does it fit into the curriculum: all subjects- social studies, math, science, economics, finance, grammar and etc.

Possible environment and why: single user because it explains and teaches you a certain concept and gives you examples.

Cost: FREE

Software description: In Khan Academy, it asks the viewer what subject and what specific learning grade. In detail it gives you examples, descriptions, and videos to further your understanding and practices.

Software impression: Khan Academy is a very familiar and popular app! It is very easy to use, and helpful to those who need further explaining. It would be a great resource to tell students about for detail and examples of material that is complex.
