

Readers Theater Mini Lesson

Grade Level: 3rd

Curriculum Topic: Reading

Tools: Green Screen and Recording Device

For this mini lesson the students will be reading a short readers theater story. They will read the story in their parts one time and then once they have read once they will be able to use the green screen area to act out their parts the second time. They will be put in groups of 4 to do the mini lesson so that they can each have a turn at the green screen. The students will either choose to use their phones, class iPads, or the recording camera to film their videos. At the end of the lesson the students will send their videos to me, as the teacher, and we will watch them on the smart board as a class.
