

## Tour with green screen Mini Lesson

Grade level/ Audience : mid level

Group size: 3

Curriculum topic: social studies

Tools (be specific): green screen and green screen program. Ipad and apple tv to video and watch the video. Computer or mobile device to compile information from the web.

Synopsis of what you are doing including how you are using the technologies:

Kind of like the VR tour students will find a video to super impose themselves into using the green screen. The video can be a place from any time period, and they design a tour for students to watch. One student can hold cue cards for the one being videoed .
