

Design a tour using oculus rift Mini Lesson

Grade level/ Audience: mid level

Group size: 2-3

Curriculum topic: Social studies

Tools (be specific): Oculus rift for virtual tour and computers or mobile device for compiling info off the web.

Synopsis of what you are doing including how you are using the technologies:

The lesson can be looking at any number of places new and old that have virtual tours available to use with vr headsets. The students assignment will be to find a tour they like and design their own tour guide talk through for the vr tour.
