environment(s) and Why: single user- meant for only a single person to play it. Mobile- it is a mobile game that can be played wherever

- Cost free with in app purchases

.99-3.99 in app purchases with a bundle that is 15.99

- Write a paragraph or two describing the software

At its heart this is a child's game. But once your in the game and cooking you see that it is actually teaching you some cooking techniques. Everything from how to cut something to how to knead bread. You start the meal and you cook it till it is finished.

- Write a paragraph or two on your impressions of the software and possibly

This software would be a fun game to play during downtime. It teaches a bunch of basic cooking skills , which I believe everyone needs to learn. While it may just look like a fun game there is a learning aspect to it.

- Does the software pass APPS: yes
