• Cost It is free with various in app purchases from .99-4.99

• Write a paragraph or two describing the software

      You are basically an explorer that travels around the world and through various puzzles and games you learn more about different areas of the world. You can learn about everything from animals to cultures to music and more. You can do some of it for free the rest is available through in app purchases.

• Write a paragraph or two on your impressions of the software and possibly

      I like how it has a bunch of different things to learn for around the world, I do not however like paywalls. It was pretty easy to get around on the app. It could be used in a few different ways with classrooms. One way being to play with the students while they also learn about other parts of the world while having fun.

• Does the software pass APPS:yes
