

- Title Total recall : learn vocabulary
- Version 1
- Publisher or Producer Indrani Ghatare
- Target Audience 17+, but I believe it can maybe go down to 13 even.
- Type(s) of software with your justification

Drill and practice- This app helps people learn words through a system of using the word and defining t.

- Curriculum(s) – can be used in vocabulary

environment(s) and Why: Single user- it is meant for a single user to use to learn words.

- Cost free
- Write a paragraph or two describing the software

This app starts by asking you for a word you want or need to learn. Then it goes through the step of defining it for you and then wanting you to make a story with it and more to get you to learn the word. It is very useful if you are really wanting to drill a word into your head better than just writing a definition for it.

- Write a paragraph or two on your impressions of the software and possibly

I think this is a good tool to help people learn words through more means than just looking it up. It will teach you all the definitions and then it asks you to use the word. This app may not be great for someone who has a huge amount of words to learn, but it is good if you struggle with vocabulary by helping you in different ways to learn the word.

- Does the software pass APPS:yes
