

Multiplication and Division Mini Lesson

Grade Level

- 5th

Technology

- Kahoot
- Powerpoint

Curriculum

- Multiplication and Division

The Students will use Powerpoint and Kahoot to review for their test. They will be tested over multiplication facts and division facts. Students will work individually with Kahoot and in groups of 4 for powerpoint.

There is a multiplication and division review game associated with powerpoint. It follows the rules of “Are You Smarter Than a 5th Grader?” Students will work in groups of 4 to help review the answers.

The kahoot will be completed individually after the powerpoint review. Students will be tested over their multiplication and division facts.
