

App Evaluations

Title	Explain Everything
Version	5.4.7 Last Updated Sept. 9, 2019
Publisher	Explain Everything sp. Z.o.o.
Target Audience	Rated for ages 4 and up. Children of all ages can use this app.
Types of Software	Tool
How software fits into curriculum and classroom environment	This software can be used in the classroom as a tool to keep children engaged in a lesson. Teachers can use it to make instruction more instructing.
Cost	There is a free version also a monthly subscription that is 9.99 a month. The only difference in the paid version and the free version is it allows more edits, more colors, and the user is able to share with others within the app. The free version is just as effective as the paid version.
Software description	This app is a white board app that students, teachers, and parents can use to help with assignments, homework,

App Evaluations

	drawing diagrams, or editing pictures. It is easy to use and appealing to the eye.
Possible Implementations	Teachers can use this app on an iPad and create drawing or diagrams and share it with the entire class. They can ask the students to take notes with the app, write out spelling words, or make their own diagrams that relate to the lessons. Parents can use this app at home to help students study.
Does the software pass APPS?	My partner and I would utilize this app in every way. We like this app and give it a passing rate.
