Title: Explain Everything

Version: 9.1

Publisher: Explain Everything sp. z o.o.

Target: The targeted age group for this app is 4 years old and older. This app is very productive so children at age 4 might have some challenges, but would learn as they go. This time of software is a great way to organize thoughts and academic content.

Curriculum: This app does not fit into one curriculum, but can be used in any subject area. It is a personal tool to produce study and teacher material, but does not teach new material.

Environment: This app could be used inside or outside of a classroom. It can be used in any environment you want to review the content.

Cost: This app is completely free to download, but does include in app purchases. The purchases are Explain Everything™ Individual License and Individual monthly plan. Purchases are not necessary, but do provide an advantage.

Description of Software: This software allows you to create and share content displays. There is a large variety of tools you can use to create your display. This is a great way to introduce material as well as review previous content.

Impression of Software:
 I really like how you can do some much with this software to organize content to present. It is very teacher and student friendly. I like how there is no right or wrong way to do something in this software. It is very visually appealing and engaging.

Pass: This software passed the evaluation form, because it is a great tool.
