

**Grade:** First Grade

**Topic:** Math/collecting and graphing data

**Technologies:** Google Forms & Google Spreadsheets

**Synopsis:** The students will use google forms to make a survey for their parents and other teachers. I will send them out to their parents and other teachers asking them to complete this survey. When they get the results back they will use google spreadsheets to individually make charts to put the data in. The students will compare their charts and look at the different ways they did it and discuss them.
