Evaluation Write-Up

Group Member Names: Sydney Sweat, Corey Anderson, Katie Anderson

App Title: Explain Everything

Publisher or Producer: Explain Everything sp. z.o.o

Version of App: 5.5.12

Target Audience: Age 4+ but this would benefit anyone of any age.

Type(s) of Software: Tool – The student can create and do anything they think about with this software. There aren't any restrictions with this app, and it gives lots of freedom to create whatever desired file they want.

How does it fit into the curriculum? This would be used for students to take notes on if they needed to and create presentations on. If they are shy and don't want to speak in front of the class, they can record a video of themselves and put it on there to speak for them. It would work for all subject areas.

Cost or in-app purchases: The app's lite version is good enough. It allows you to do and access anything that you need. There are purchases for businesses, individuals, or education groups. This ranges anywhere from $899.99 to $6.99 depending on the purpose.

Description of the Software: There is so much that this app can do. You can record videos, take notes, draw, present something, teach a lesson, and offers cooperative learning. It has the ability to do so much and offers an abundance of tools to do it with.

Impression of the Software: This software is amazing. It would need a little monitoring because of the freedom it allows, but if used correctly is so different and would benefit the students well. Specific projects can be assigned on this app, or freedom can be given to take notes or create something special.

Does the software pass APPS: Yes
