

Katie Anderson

5/8/2020

- 6<sup>th</sup> Grade
- Language Arts – Genres
- Google PowerPoint and Kahoot

Synopsis: For whole group instruction, I will begin the lesson by presenting a Google PowerPoint over the different types of genres. I will also have books for each type of genre listed so students are able to see what a specific book for that genre looks like. After I present the PowerPoint, I will put students into pairs to play a game of Kahoot over the genres and books related to each one. Each pair of students will use an iPad to answer the questions that appear on the Smart board. The Kahoot game will be used for drill and practice, and we will review the genres again the next day.
