

# Create an E-book

- Subject: Language Arts
- Grade: Third
- Standard: RL.3.3 Describe characters in a story (e.g., their traits, motivations, feelings) and explain how their actions contribute to the sequence of events.
- Tools: QR Code Scanner and E-Book (Power Point)
- Synopsis: The students will scan the QR Code that will bring them to read the book 'Sarah, Plain and Tall' on their tablets. Then, after discussing the book, they will create their own E-Book of a character that they create and how they cope with a big event that changed their life. We will take the time to read everyone's story that they created.
