

## Evaluation Write-Up

**App Title:** Banana Math

**Version:** 2.0.0

**Publisher/Producer/Creator:** Power Math Apps LLC

**Target Audience:** Ages 4+ Made for ages 6-8

**Type(s) of Software:** This is a wonderful Drill and Practice app that allows students to participate in math drills. This app could also be used as Problem solving as students are clearly solving math problems.

**Curriculum(s):** This could be included in a math curriculum for grades K-2 for math as well as during free play. This offers great practice to build on what students already know as well as challenge them.

**Cost:** \$1.99

**Software Evaluation:** The app offers a glitch free experience with age-appropriate content. The graphics are appealing and immediately grabs your attention. The app allows multiple attempts when it comes to answering questions and will allow you to answer until you achieve the correct answer.

**Impressions Evaluation:** I like this app because it does have fun graphics and while it is simple, it is pleasing to use. This could be especially beneficial to students who might become overwhelmed at the variety of uses some other apps might offer. This is a great app for its intended purpose which is math practice.

Does the software pass **Review?** Yes

Does the software pass **Evaluation?** Yes
