

Science

Subject: Science

Grade: 2nd

Tools: PowerPoint & Padlet

Standard: ESS2.C: The Roles of Water in Earth's Surface Processes

Water is found in the ocean, rivers, lakes, and ponds. Water exists as solid ice and in liquid form. (2-ESS2-3)

Synopsis:

Students will get into groups and make a PowerPoint about the different roles of water on the earth's surface. The PowerPoint should have at least 10 slides, not including the title and reference page. Next, students will make a Padlet to share with the class the resources they found to make their PowerPoint.
