

Evaluation Write-up

Title: Brain Pop

Version: 3.1.9

Publisher: BrainPOP

Target Audience: Ages 4+

Type of Software: Discovery Learning

Curriculum(s): Can work for all subjects.

Possible Environment(s): Classroom, single use, small group

Cost: Free

Description of Software: This learning resource software engages students through animated movies. Movies topics relate to current events, historical milestones and figures, holidays, and much more. Movies are paired with interactive quizzes to test student knowledge and are closed captioned so student's can follow along.

Impression: Great learning resource for students. This app is very eye-catching and keeps students' attention. We like how teachers could use this in class on the smartboard as a resource to their lesson.

Does the software pass? Yes
