Possible Environment(s): Student, Parent, and teacher use. Can be used individually or teacher can pull ClassDojo up on Smartboard and give out points to the class.

Cost: Free

Description of Software: This app serves as a communication app for teachers, parents, and students. Teachers can share videos, pictures, and announcements via the app. Teacher can instantly message parents and parents can see how their child's daily behavior and awards chart. ClassDojo helps build a positive classroom environment by encouraging student by giving reward points for things such as working hard, teamwork, and helping others.

Impression: We were very impressed with the app and will use it in our classroom as a communication tool and rewards tracking. We liked how you can individually give out points and take points away. We also like how parents are able to view daily reports and see class artwork, announcements, etc. This app also has a noise meter to help control voices in the classroom!

Does the software pass? Yes
