Description of Software: QR Reader scans QR codes and barcodes. This software can also be used as a pdf scanner, business card scanner, puzzle scanner, and database scanner. This app allows you to browse products and create your own QR codes.

Impression: This app is very simple and easy to use. The app allows you to customize the look of the QR code you create. We liked how you can scan in a puzzle and assignments by using the scanner. This would be a great tool for teachers to add to newsletters or messages.

Does the software pass? Yes
