

Evaluation Write-up

Title: Total Recall

Version: 5.0

Publisher: Zyense

Target Audience: Ages 4 and up, but we think the audience should be a little older. It could be a good teaching tool in first grade and up in our opinion.

Type of Software: Tool because it organized thoughts in to a simple diagram.

Curriculum(s): Could be used for teachers to create educational diagrams, and could also be used for children in any subject to help them organize their thoughts.

Cost: The app is free to download, and has a \$1.99 in app purchase for Mind Map Unlock.

Description of Software: This app allows people to map out their thoughts and plans in to webs, and it can be easily shared with friends or colleagues.

Impression: We think this is a great app, it allows for some variation with the bright colors, the size of the map, the shapes of the bubbles, and the way to connect the webs.

Does the software pass? Yes
