

Educational Software Write-Up

Title—Explain Everything

Version—5.3.7

Publisher—Explain Everything sp. z o.o.

Target Audience—Ages 4+

Curriculum(s)—The app could be used in any content area for any reason.

Cost—The app is free for 30 days, but after that it is \$12.99 monthly.

Description of Software—This software can be used to write, draw, and color. It can be used for either student or teacher because of how you can collaborate. Students could join by using a code and they could invite friends. There is also the feature to add media and record on the app.

Impression of Software—We were very impressed by this app. We liked that students are able to create on a whiteboard because it's fun and they will instantly want to participate. It's also impressive that they can join and share with friends so this would be a very good app to use for partner work.

Does the app pass? Yes
