

Addition Practice

1. $84+2=86$

2. $66+1=67$

3. $62+3=65$

4. $30+4=34$

5. $85+1=86$

6. $23+3=26$

7. $50+8=58$

8. $81+7=88$

9. $66+2=68$

10. $19+20=39$

1. $84-2=82$

2. $66-1=65$

3. $62-3=59$

4. $30-4=26$

5. $85-1=84$

6. $23-3=20$

7. $50-8=42$

8. $81-7=74$

9. $66-2=64$

10. $20-19=1$

Subtraction Practice

Draw the number sentence for the following word problem and find the solution:

Mark has four balls. He buys two more. How many balls does Mark have now?

$$4 + 2 = 6$$

following word problem and find the difference:

Paul had twelve lemons. He gave seven of them to his friend. How many lemons does Paul have now?

$$12 - 7 = 5$$

Draw the number sentence for the
