- Name: Explain Everything

- Version: 1.0.1

- Publisher: Explain Everything sp. zo.o

- Target Audience: 4+ but we agreed this application was better suited for teachers and adults.

- How does it fit into curriculum: It doesn't fit into curriculum. It has no educational benefits for students.

- Possible Environment and Why: This application would be good between lessons and during centers to help with problem solving skills.

- Cost: It is free to download with an in app purchase of $1.99 to remove ads.

- Description: Explain Everything is an application that is like an interactive whiteboard.

- Impression and how it can be used in a classroom: It can be used to foster problem solving skills. It can also help organize teacher content.

- Pass or Fail: Pass because it was easy to use and will help me stay organized as a teacher.
