

- Name: My Planet Simulation
- Version: 2.19.0
- Publisher: Ape Apps
- Target Audience: 4+ but we agreed this application was better for 2nd grade and up
- How does it fit into curriculum: It helps students problem solve and use critical thinking skills to keep the planet alive.
- Possible Environment and Why: This application would be good for a science class
- Cost: It is free to download with in app purchases of \$1.99 to remove ads.
- Description: My Planet Simulation is an application that allows students to give different nutrients to the earth in order to keep it alive. There are no instructions. You learn as you go and the longer you keep the planet alive, the more points you get.
- Pass or Fail: Pass because it was easy to use and it can teach students the importance of taking care of our planet.
