

Subject: Math

Patterns

Grade: First

Tools: Bee Bot and [Patterns are everywhere](#)

Synopsis: For this lesson we will be learning about rhyming and patterns. First we will watch a video on what rhyming is from YouTube then we will get out the bee bot and will give them a sequence of events and they are to push it in on the Bot and see if they will get it right. The bot will have to follow a line that I give them in order to see if they do it right.
