Title : **Educreations**

Version : **2.3.8**

Producer : **Educreations Inc**

Target Audience : **Teachers**

Type(s) : **tool – Educreations is a teacher tool because it organizes lessons and allows you to post your lessons so students can see your notes on the material**

Curriculum : **used for any content of material**

Environment : **Teacher tool – because the teacher will use it to show his / her notes to her class so It is clearer, and easier to translate**

Cost – **FREE**

Describing the software : **when you go to the app you will see a BUNCH of lessons from other teachers so you can bounce ideas from other people and can also enhance that in your lesson to help a student. This app also allows you to draw / write your own notes for student to see rather than taking the time in class to do it.**

Impressions of the software: **I really enjoyed the feature of the other teachers posting their lessons, this is a good resource for the teacher to use for examples, or material he/ she can use to help the students understand better.**
