**Target Audience (if your opinion differ from the publisher, state that):** Ages 9-11

**Types of software with your justification:** Discovery Learning: the students can pick what videos they want to watch.

**Curriculums – How does it (or can it) fit into the curriculum –Possible environments and why:**

These videos can be used for brain breaks and getting the student up and out of their seats. Also, for indoor recess and background music during downtime. Can be used as an intro to a lesson.

**Cost:** Free download. Subscription \$64.00/year or \$9.99/month

**Write a paragraph or two describing the software:** This app is also all videos about mindfulness, yoga, and how to be calm and relaxed. There are categories like super yoga, Halloween, celebrate diversity and many more. Students can search for videos and create their own library of videos they like. They can make a list where they can bookmark content.

**Write a paragraph or two on your impressions of the software and possibly how you see the software being used in your class:** We like this app because it is easy to use, organized, colorful, and the navigation is easy. This app would be great for after recess or after a quiz to have the students be calm. They can use it on their own time to learn how to handle their anxiety or remain calm and have mindfulness. It can also be used as a reward when a student is finished with a quiz or homework assignment, they can go and watch some videos.

**Does the software pass APPS:** Yes
