**Title:** GoNoodle

**Version:** 3.3.0

**Publisher or Producer:** GoNoodle, Inc

**Target Audience (if your opinion differ from the publisher, state that):** Ages 4-10

**Types of software with your justification:** Discovery Learning: The student chooses which video they want to watch

**Curriculums – How does it (or can it) fit into the curriculum –Possible environments and why:**  
This can be used for indoor recess or even during downtime. Teachers can also use this as a brain break.

**Cost:** Free download. No in-app purchases

**Write a paragraph or two describing the software:** This app is strictly all videos. All the videos are sectioned into categories, ie. Featured, channels, go noodle mixes, and featured in school. You can search for a specific video about sports, mindfulness, educational, and food. There are new videos posted every week that the students can watch. Each video has music that students can dance to and a character.

**Write a paragraph or two on your impressions of the software and possibly how you see the software being used in your class:** We like this app because it is a unique concept. We have not had an app like this before and so it was fun to navigate around. In the classroom, the teacher can use this for indoor recess, breaks, and for brain breaks to get the students up and moving. They can also use the educational videos during the lesson.

**Does the software pass APPS:** Yes
