

Evaluators: Kaitlin Ponder, Danielle Hunkins, Miranda Wyatt

Title: Planboard - iPad

Version (if there is one or if it is one of a series): 2.26.1

Publisher or Producer: Chalk.com Education, Inc.

Target Audience (if your opinion differ from the publisher, state that):

Teachers

Type(s) of software with your justification: Tool because the app is used to make lesson plans for teachers. Teachers would use this app as a tool in creating these for their class.

Curriculum(s) - How does it (or can it) fit into the curriculum -Possible environment(s) and Why: This app can fit into any curriculum because it is made for teachers to use and adapt to all subjects. The app allows for teachers to make lesson plans for all subjects. It could definitely be used in the classroom by any teacher, or it could even be used by other school faculty, such as a guidance counselor, to schedule sessions or meetings.

Cost: Free.

Write a paragraph or two describing the software: When you first open the app, the user is asked to indicate how long your semester is, what days and times you teach, and to add your courses. After that, you are brought to the main screen where the lessons are kept. You can create lessons, edit them, and add pictures, videos, and links to your lessons. When creating lessons, you have the ability to type out your lesson, add bullet points or numbers, change the font size and color, and basically do anything you could do in a standard word document. After completing lessons, you can export them in a variety of ways.

Write a paragraph or two on your impressions of the software and possibly how you see the software being used in your class: We liked the app and thought that it was easy to follow and had a lot of great features. The setup is organized and easy to understand as well. We all thought that we could see ourselves using this app in the classroom due to its efficiency and organization.

Does the software pass: Yes.
