After the students have watched the movie they will look at my Padlet example that I have made that gives my comparison of the text and movie. The students will then be placed in groups and will create their own Padlet board about how they compare to one another. The groups will then use the QR'T app on their iPads to create QR codes out of their Padlets. The groups will then go around the room and scan the QR codes to see how the other groups compared the movie and text.
