Grade Level: Third

Subject: Social Studies

Curriculum Topic: Holidays

Tools: Padlet and Post-It Plus

https://padlet.com/kori_l_tapp/glaklhp3c6b8

Synopsis: We have already discussed the different holidays and their significance to our country. In this lesson, the students will be making their own Padlet board to show their understanding of the holidays. They will start by using the Post-It Plus app to organize their thoughts. They will use this organization tool to write down definitions, websites, etc. After all their thoughts are organized, they will create their holidays board. They need to have all the holidays, with a description, picture and website to go with it.
