

3 On-Line Tools

Kori Tapp

1. Name: Kahoot

URL: <https://kahoot.com/>

Description: Create, share and play online games or trivia quizzes.

How I will use it: I would make a quiz on Kahoot, project it on the smartboard and have my class take it. The person that does the best will get a fun prize.

2. Name: Quizlet

URL: <https://quizlet.com/>

Description: Make online flashcards, use other peoples flashcards, learn through flashcards, games and more.

How I will use it: I would have them make a study set after they get their graded study guides back. Quizlet has many ways to help students study the different sets. They can download the app so they can study at home too. I would tell the parents to look for their different study sets to help their student prepare for the upcoming test.

3. Name: ClassDojo

URL: <https://www.classdojo.com/#LearnMore>

Description: A place where parents, students and teachers can connect. There are different features such as a group maker, timer, noise and music makers, etc.

How I will use it: There are many ways I will use it. I will use the tool kit for its timer, group maker, selecting random students, etc. I would also use it to connect with the parents. I would let the students update their portfolios throughout the year.
