

# AUP

Acceptable Use Policies (AUP) are great for the classroom because it sets rules and consequences for technology used in the classroom, and the general rules in the classroom. AUPs are great to use as a family as well. It allows your kids to become familiar with rules and consequences inside and out of the classroom.

I have attached a template that you could make for your family for an at home AUP. You can sit down with your child and fill this out together. This will be a great way for your child to have a routine and follow rules at home that are similar to the rules in our classroom!

Thanks!

Ms. Cousins
