

# **Kahoot and Multiply!**

**Subject:** Mathematics

**Grade:** Third

**Tools:** Kahoot and QR Code Reader

**Synopsis:** Students are going to be playing a review game using the tool Kahoot. The game will be multiplication facts, and students will have a whiteboard to work out anything they need to. The students will get on Kahoot by scanning the QR code on the iPad. The iPad will be a link that takes them to the Kahoot program. Students will be working individually for the entire class.
